DALLAS, TEXAS JULY 1962

## DALLAS ASCS COMMODITY OFFICE EMPLOYEES EXCEED WORK EXPECTATIONS

The employees of the Dallas ASCS Commodity Office are again surpassing all work production goals prescribed by the Department of Agriculture as they have done every year for the past 10 years.

C. H. Moseley, director of the office, said today that this is an enviable record for any office inside or outside government. He

lauded members of the staff for increasing their effort to improve work performance and boost production.

C. H. Moseley

"If 1952 is taken as a base of 100 per cent for comparison, we are now turning out work at the rate of 387 per cent," he said.

"Much attention is given these days to increases in worker productivity in private industry but there are few indeed who could match our annual increase of 38.7 per cent," said Moseley.

"There has not been a year in the past 10 when the Dallas office has failed to improve its record over the previous year. The improvement due to increased efficiency in the last year alone represents a saving of 79 full-time employees. By producing almost four times as much work per man day as we did in 1952, we are saving the taxpayers hundreds of thousands of dollars per year," he emphasized.

## TO YOUR HEALTH

### Polio Vaccination Campaign

You have probably been reading news of plans for the oral polio vaccination campaign. The Dallas County Medical Society will offer the vaccine at various schools throughout the county on July 29 and August 5. Consult your local newspaper for the time and the location nearest you.

You should take the oral vaccine, even though you have received the Salk vaccine injections. The Sabin oral vaccine is expected to be more effective. With the number of polio cases mounting daily, it is imperative that we protect ourselves by all means possible.

Regardless of age, everyone of you should report for the vaccine. Take your families with you. The oral vaccine is not available for distribution through our office Health Unit. Dr. R.B. Wolford, CSC Regional Medical Officer, urges that all Federal employees participate in the mass county-wide program. This was also the recommendation of local U.S. Public Health officials.

On the Sundays of July 29 and August 5, Type I polio vaccine will be given. Later, campaigns will be planned for doses of Types II and III which are necessary to complete immunization against the three types of polio. If you miss a dose, consult your physician for it.

During the mass vaccination program, no actual charge will be made, but contributions of 25¢ per dose

are requested. The vaccine will be free for those who cannot afford to pay.

WE MUST DO ALL WE CAN TO PREVENT POLIO! Do not fail to take advantage of this opportunity!

-Jean Morgan, R. N.

The accompanying likeness is Isabelle Buchanan, the efficient Assistant Treasurer of the Dallas USDA Federal Credit Union.

"Mrs. Buck", as she is commonly known, has a very loud growl but is not considered vicious. It makes her extremely happy for members of the Credit Union to offer her payments prior to 9:00 a.m. each workday morning, and she is really enthusiastic about taking payments after the closing hours posted on the door.

It is suggested, however, that each member try to make his payment within the working hours posted on the door as there is no doubt that if Mrs. Buck becomes too elated, it would ruin her normal disposition.

## MORE ASCS NEWS

The big easy chair in DAC was empty last week as Marshall Bond was fishing in Canada. It seems Marshall wrote that he caught one that was too big to weigh so he took a picture of it and the picture itself weighed seven pounds.

Of course, the more a man fishes the better he gets at . . . well, telling about it. And most everyone will agree that Marshall has fished too much.

"Likewise, the trade with which we do business benefit in many ways from our efficiency," Moseley pointed out.

"Our prompt shipments, deliveries, and invoicing on a 24-hour basis is extremely beneficial to industry and financial institutions."

Moseley said these are only a few of the accomplishments of the Dallas office and some of the reasons for the excellent relationship with trade groups with which we do the major part of our government's business.

"Employees made this enviable record possible by their whole-hearted devotion to duty."
